100+ Integrations

(POS, SMS Gateways, Payment Gateways, Social Media Plugins, Multi-languages, Multi-Currencies, and many more)

Challenges that the Food Industries currently face

"At least, not the ones using Yelo!" ;)

High Commissions

- Requires 24/7 human availability to manage incoming orders
- Inability to view & manage customer reviews and feedbacks
- Manual order/customer management through excel sheets creating loss of data
- Keeping an eye on the stock levels/inventories time-to-time
- Inability to take orders in closed hours

and many more....

Customer Retention

Bringing New Customers

The list is quite lengthy, but Yelo enables you to get online in a flash and eliminate this long list.

Order Management (Yelo)

Provide your customers a seamless food ordering experience & a smooth checkout flow to drive more revenue.

Feel the difference with 'Themes'

- Stunning themes tailored to your business from our Theme Engine.
- Designed to allow online restaurants to change the look and feel of their marketplaces.

Stand out in digital branding through 'Promotions'

- Promote new stores or products by adding banners & sending custom push notifications to deliver special offers and discounts for users.
- Reward your loyal customers by offering loyalty points as well.

'Catalog Management' in just a few clicks

- Efficiently and accurately manage your entire inventory.
- Set different menus for stores based on the time of the day, the days of the week, and festive occasions.

'Amounts' paid and 'Commissions' earned

- Settle all your payments with the merchants in real-time.
- Enables the user to set different commission percentages for each store owner.

Simplify your business operations with Integrations

From ordering to delivery, Social Media to CRM, Yelo has integrated with 100+ external integrations that govern end-to-end operations between businesses and customers

Delivery Management (Tookan)

Optimize delivery operations using a single platform to increase efficiency, & improve customer service.

Services at the 'Customers' Doorstep'

- Auto-allocation of orders to your nearest & available delivery agents.
- Seamless customer experience with real-time order tracking.

Enhanced 'Productivity'

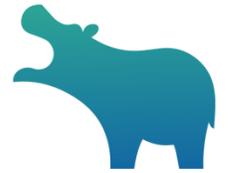

- Easily navigate to multiple destinations and ensure on-time deliveries.
- Optimize routes and schedules in one centralized view.

Automating 'Delivery Fulfillment'

- Allow your agents to scan barcodes, add notes, images and collect digital signatures from the customer.
- Analyze data and reports to improve and optimize the performance of fleets and drivers.

Customer Engagement (Hippo)

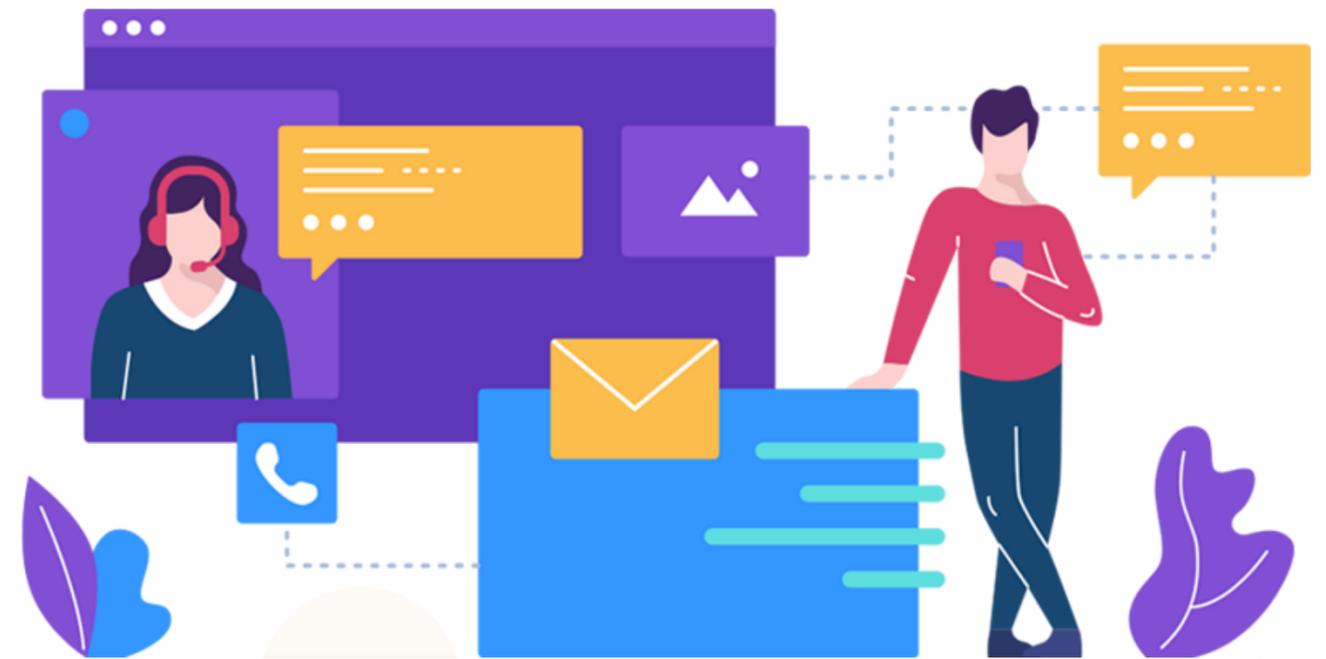

Boost customer satisfaction with proactive support and in-app chat.

One-Stop-Shop for all 'Marketing & Customer Engaging' activities

- Engage your customers with the best conversational platform
- Live chat, chat bots, email & messages broadcast

Powerful Dashboard and Controls

- With the interactive dashboard, you can monitor your chats effectively and effortlessly.
- Reduce workload by automating chat assignments and re-assignment to your chat support agents.
