

 **Jungleworks Grocery Stack**

**Digital Grocery Ordering and Delivery SaaS Platform for
On-Demand Industry**

Enabling the growth of various On-Demand Grocery Business Models

Single Storefront

Provide your customers with effortless grocery ordering and efficient delivery, straight from your grocery shop.

Hyperlocal Marketplace; Aggregator

Aggregate all the local grocery stores/small nearby vendors on your marketplace and offer your customers online grocery shopping with on-time delivery.

Direct-to-Consumer; Multi-Storefront

If you own chains of your grocery brand, then let your customers order groceries from the convenient local branch and have them delivered. Serve directly and avoid the intermediaries.

Grocery Businesses currently confront the following challenges

Excessive charges by aggregators

Customer retention

Bringing new customers

Inefficient same-day deliveries

Higher operational costs

Low profit margins

Stock/Inventory management

Inability to take online payments

Dependency on barcode scanners for billing

Lack of POS integration to traditional system

Difficulty observing consumer behavior

Shelf space management

All-in-One Tech Suite for End-to-End Operations

Order Management (Yelo)

Provide your customers a seamless grocery ordering experience & a smooth checkout flow to drive more revenue.

Feel the difference with 'Themes'

- Stunning themes tailored to your business from our Theme Engine.
- Designed to allow online grocery stores to change the look and feel of their marketplaces.

Stand out in digital branding through 'Promotions'

- Promote new stores or products by adding banners & sending custom push notifications to deliver special offers and discounts for users.
- Reward your loyal customers by offering loyalty points as well.

'Catalog Management' in just a few clicks

- Efficiently and accurately manage your entire inventory.
- Set opening and closing hours for your grocery store and allow your customers to place pre-orders even in your closed hours.

'Amounts' paid and 'Commissions' earned

- Settle all your payments with the grocery stores in real-time.
- Enables the user to set different commission percentages for each grocery store owner.

Simplify your business operations with Integrations

From ordering to delivery, Social Media to CRM, Yelo has integrated with 100+ external integrations that govern end-to-end operations between businesses and customers

Delivery Management (Tookan)

Optimize delivery operations using a single platform to increase efficiency, & improve customer service.

Services at the 'Customers' Doorstep'

- Auto-allocation of orders to your nearest & available delivery agents.
- Seamless customer experience with real-time order tracking.

Automating 'Delivery Fulfillment'

- Allow your agents to scan barcodes, add notes, images and collect digital signatures from the customer.
- Analyze data and reports to improve and optimize the performance of fleets and drivers.

Enhanced 'Productivity'

- Easily navigate to multiple destinations and ensure on-time deliveries.
- Optimize routes and schedules in one centralized view.

Customer Engagement (Hippo)

Boost customer satisfaction with proactive support and in-app chat.

One-Stop-Shop for all 'Marketing & Customer Engaging' activities

- Engage your customers with the best conversational platform
- Live chat, chat bots, email & messages broadcast

Powerful Dashboard and Controls

- With the interactive dashboard, you can monitor your chats effectively and effortlessly.
- Reduce workload by automating chat assignments and re-assignment to your chat support agents.

15-Minute Delivery Service: The New Grocery Trend

According to the statistics, most of the grocery businesses nowadays have adopted the fastest delivery services for their grocery orders; setting a trend for 12-minute, 15-minute, or 30-minute grocery delivery services.

Therefore, not just traditional online ordering and delivery, Jungleworks, through Yelo and Tookan, helps ensure the grocery businesses cope up with the trend through enhanced delivery features, and compete in the race of 15-minute grocery delivery services.

One of the Jungleworks' best examples of this type of grocery business is:
